JULY., 1908.

No. 7

EDITORIAL NOTES.

Probably the most remarkable gathering of medical men in the history of this country occurred in Chicago in the first week of June; it was the Fifty-ninth Annual Meeting of the American Medical Association. By nine o'clock on Monday morning, June 1st, the registration hall was crowded and it was evident to one with half an eye that all previous records of attendance would be broken. And this assumption was well within the fact, for no less than 6447 members registered during the session, and doubtless there were several hundred who came but did not register; there are always some in this class. The House of Delegates began its work promptly on Monday morning and conducted a maximum amount of business in a minimum amount of time; there were no hitches and no squabbles, and when any matter came to a final vote, in almost every instance the vote was unanimous. A resume of the work of the house will be found on another page and it will be seen that measures of great importance were passed upon. The two great undertakings of the Association—the Council on Pharmacy and Chemistry and the Council on Medical

Education—were heartily and enthusiastically supported and ample funds provided for their continued activity. By unanimous vote, Dr. J. N. McCormack was requested to continue in charge of the work of organization and public education in matters medical, and he unwillingly consented to do so. No man in our profession has done more arduous work during the past six years, or at greater personal sacrifice, for the benefit of physicians, than has Dr. McCormack. Only eight delegates from the various state associations failed to register in the House of Delegates; and, we are ashamed to confess the fact, California was one of the eight states so lacking. But two of our three delegates were in attendance. This is not as it should be and the House of Delegates of our State Society, at its next meeting, should see to it that members are elected who can and will fulfil the obligations which they assume when they consent to become delegates. The work of the Association is far too important to every physician in the land to be in the slightest degree neglected. Let us think this matter over carefully and choose deliberately, at our next meeting, such delegates as we may be sure will be in attendance and will represent our state. It is true that to be a delegate means to work; but the work is not as hard as it was a few years ago, and the house manages to perform its labors in much less time than formerly, thus giving delegates some time to devote to their section work.

Dr. Burrell, the President, made an ideal presiding officer and conserved the time of the house very materially. His rulings were uniformly just and made promptly; and, withal, with due courtesy. Atlantic City was chosen as the place for the next meeting, the time to be set by the Trustees, depending upon the dates which are available, though probably about the third week in June, 1909. Dr. William C. Gorgas, Colonel, U. S. A., was elected President-elect and will be installed at the next meeting. Certainly the Association honored itself no less than Colonel Gorgas in electing for its president one who has written his name so high upon the roster of American physicians. First Vice-President, Dr. Thomas Jefferson Murray, Butte, Montana; Second Vice-President, Dr. John A. Hatchett, El Reno, Oklahoma; Third Vice-President, Dr. Thomas A. Woodruff, Chicago; Fourth Vice-President, Dr. E. N. Hall, Woodbury, Kentucky; Secretary, Dr. George H. Simmons; Treasurer, Dr. Frank Billings; Trustees (term expires 1911), Dr. Wisner R. Townsend, New York; Dr. Philip Mills Jones, San Francisco, and Dr. William T. Sarles, Sparta, Wisconsin. The Trustees whose terms have not expired are as follows: Expire 1909—Drs. William H. Welch, Miles F. Porter, M. L. Harris. Expire 1910—Drs. T. J. Happell, W. W. Grant and Philip Marvel.

therapy, etc., are thoroughly discussed; the advantages of sanatorium treatment are reviewed dispassionately and clearly; and these are all given their true value, as means by which the natural immunizing processes of the body are brought into activity.

The chapter on Specific Treatment has been written in the light of modern studies on immunity, and in it the author clearly demonstrates that cure in tuberculosis must be wrought by measures which are directed against the cause of the disease—the micro-organism; that it is accomplished through the establishment of immunity on the part of the patient to the tubercle bacillus and its toxins. The action of tuberculin as a means of artificially stimulating the machinery of immunization is exhaustively discussed, and the theories on which have been built our present day conception of tuberculin therapy are explained. The author is exceptionally qualified to discuss this subject by reason of his great experience with these remedies and his unusual opportunities for careful clinical investigation.

The chapter on Displacement of the Thoracic Viscera in Advanced Pulmonary Tuberculosis is most instructive; and his observations on the effect of advanced tuberculosis on the heart, much more complete than those found in the usual text-book. It is to be regretted that the author did not write a chapter on pathology.

His description of the preparation of some of the forms of tuberculin is open to criticism, particularly T. R., for its preparation is much more complicated than his description would suggest. The reviewer would also submit that its administration can not be carried out by such a regularly interspersed plan of dosage as is described. The intelligent and successful use of tuberculin is only accomplished as the result of careful observation and clinical experience, and while the administration of five milligrams of T. R., or more as the author recommends, might be a perfectly safe procedure in his hands, it might be fraught with grave and fatal danger in the hands of one not accustomed to its use. The rapidity with which tuberculin is springing into favor in all quarters is, the reviewer fears, going to react to its discredit, because of the abuses to which it must inevitably be put by those untrained in its use, and not conversant with the later theories of immunity.

The work throughout is annotated with marginal notes, which to many will be a convenience. Dr. Pottenger's book should find a place in the library of every progressive physician. G. H. E.

ARMY MEDICAL EXAMINATIONS, 1908.

The Act of April 23, 1908, reorganizing the Medical Corps of the Army, gives an increase in that Corps of six colonels, twelve lieutenant-colonels, forty-five majors, and sixty captains or first lieutenants, and establishes a Medical Reserve Corps as an adjunct to the Medical Corps. Under this recent act, the lieutenants of the Medical Corps are promoted to captain after three years' service instead of five, and the increase in the higher grades insures promotion at a reasonable rate all through an officer's military career. Furthermore, applicants who are found qualified in the preliminary examination are appointed first lieutenants of the Medical Reserve Corps and ordered to the Army Medical School in Washington, D. C., for eight months' instruction.

Preliminary examination for appointment in the Medical Corps will be held on August 3, 1908, and formal applications should be in possession of the War Department prior to July 1st. The applicant must be a citizen of the United States, between twenty-two and thirty years of age, a graduate of a medical school legally authorized to confer the degree of doctor of medicine, of good moral character

and habits, and must have had at least one year's hospital training or its equivalent in practice. The examination will be held concurrently throughout the country at points where boards can conveniently be assembled, and due consideration will be given to the localities from which applications are received, in order to lessen the traveling expenses of applicants as much as possible.

The examination in subjects of general preliminary education may be omitted in the case of applicants holding diplomas from reputable literary or scientific colleges, normal schools or high schools, or graduates of medical schools which require an entrance examination satisfactory to the faculty of the Army Medical School.

The large number of vacancies created in the Medical Corps by recent legislation makes it certain that all successful candidates will be recommended for a commission for several years to come.

It is desired to obtain and maintain a list of qualified medical men all over the country who are willing to serve as medical officers in time of emergency, and to such men the President is authorized to issue commissions as First Lieutenants, Medical Reserve Corps. It is recognized that it will be necessary to place only a limited number of these officers on the active list in time of peace, and it is hoped that young medical men throughout the country and medical officers of the militia of the various States may be sufficiently interested to secure positions on the Medical Reserve Corps list.

An applicant must be between twenty-two and forty-five years of age, a citizen of the United States, a graduate of a reputable medical school legally authorized to confer the degree of doctor of medicine, and must have qualified to practice medicine in the State in which he resides. Examinations will be held in the near future and will embrace the practical medical subjects.

Full information concerning the Medical Corps and the Medical Reserve Corps may be procured upon application to the Surgeon-General, U. S. Army, Washington, D. C.

NEW AND NON-OFFICIAL REMEDIES.

The following articles have been added to the list of New and Non-Official Remedies approved by the Council on Pharmacy and Chemistry:

Lecithin Solution (Fairchild Bros. & Foster).
Lecibrin (Fairchild Bros. & Foster).
Glycerole Lecithin (Fairchild Bros. & Foster).
Casca-Laxative (H. K. Mulford Co.)
Bismuth Hydrate Comp. (H. K. Wampole & Co.)
Liquor Sedans (Parke, Davis & Co.)
Liquor Sedans Rx2 without Sugar (Parke, Davis & Co.)
Liquor Sedans with Cascara (Parke, Davis & Co.)

CHICAGO MEETING OF THE A. M. A.

The fifty-ninth annual session of the American Medical Association was held in Chicago, June 2 to 5. For the first time since the St. Paul meeting in 1901 the association met in the center of the country. To this fact, as well as to the greatly increased membership in the last few years is due the large attendance. The registration office opened at 8:30 on Monday morning, and it was apparent almost from the start that all previous records of attendance would be broken. In the four days of the session 6447 members were registered. Including those Chicago members who did not register, there were at least 500 in attendance whose names do not appear on the registration list. The actual attendance would not fall far short of 7000. Adding at least 10,000 guests, exhibitors, etc., makes the actual number of persons in attendance about 17,000. The general headquarters

tion were presented. The action of the board of trustees in preparing the second edition of the directory was approved. The reference committee on legislation and political action recommended the approval of the model law for vital statistics, which recommendation was adopted. The resolution presented by Dr. A. T. McCormack of Kentucky, requesting all state associations publishing or controlling medical journals to restrict advertisements to such preparations as were approved by the council on pharmacy and chemistry was adopted. A committee of three to confer with a like committee from the American Pharmaceutical Association in regard to drug reforms was authorized. The candidacy of Dr. C. A. L. Reed of Cincinnati for the United States Senate was endorsed.

On Thursday afternoon the annual election took place with the following results:

President—Dr. William C. Gorgas, Ancon, Panama.

First Vice-President—Dr. Thomas Jefferson Murray, Butte, Mont.

Second Vice-President—Dr. John A. Hatchett, El Reno, Okla.

Third Vice-President—Dr. Thomas A. Woodruff, Chicago, Ill.

Fourth Vice-President—Dr. E. N. Hall, Woodburn, Ky.

General Secretary—Dr. George H. Simmons, Chicago, Ill., re-elected.

Treasurer—Dr. Frank Billings, Chicago, Ill., re-elected.

Trustees (to serve until 1911)—Dr. Wisner R. Townsend, New York; Dr. Philip Mills Jones, San Francisco; Dr. William T. Sarles, Sparta, Wis.

The following nominations were made by the president and confirmed by the house of delegates:

Committee on medical legislation—Dr. Charles Harrington, Boston, Mass., to serve until 1911.

Council on medical education—Dr. Victor C. Vaughan, Ann Arbor, Mich., to serve until 1913.

Committee on transportation and place of session—Dr. M. L. Harris, Chicago, chairman, for three years.

The following were elected honorary members:

Dr. Edward F. Schaefer, Edinburgh, Scotland.

Dr. August Martin, Griefswald, Germany.

Dr. E. Treacher Collins, London, England.

The committee on awards reported the following awards in accordance with the report of the committee on scientific exhibit:

Dr. H. T. Ricketts, gold medal for research exhibit on tick fever.

Dr. Fenton B. Turck, diploma for exhibit illustrating pathology of peptic ulcer.

Northwestern University Medical Department, diploma for teaching exhibit, illustrating morbid anatomy.

Rush Medical College, diploma for teaching exhibit, illustrating morbid anatomy.

Dr. Charles H. Beard, diploma for exhibit of drawings of the human eyeground.

Dr. Maximilian Herzog, diploma for exhibit, illustrating early human embryology.

St. Mary's Hospital, Rochester, Minn., diploma for clinical and pathologic exhibit of stereoscopic photographs.

Dr. Edmond Souchon, diploma for improved method for the preservation and exhibition of anatomic specimens.

Dr. A. M. Stober, Cook County Hospital, diploma for exhibit, illustrating blastomycosis.

Dr. Mallory and Dr. Wolbach (Harvard), diploma for exhibit of drawings and photomicrographs, illustrating the classification of tumors.

United States Public Health and Marine Hospital Service, honorable mention for exhibit, illus-

trating the investigations of Dr. C. W. Stiles on bookworm.

Iowa State University, honorable mention for instructive tuberculosis exhibit.

Cincinnati Hospital, honorable mention for creditable group of specimens.

Philadelphia Polyclinic, honorable mention for creditable exhibit of group of teaching specimens.

Lying-in Hospital of New York, honorable mention for creditable exhibit.

The committee on transportation and place of session recommended Atlantic City as the next meeting place, which choice was agreed to by the house of delegates. The reference committee on legislation and political action reported, requesting the committee on medical legislation to arrange for a conference with the committee of one hundred, the surgeons-general of the army, navy and public health and marine hospital service with a view to securing co-operation on the establishment of a National Department of Health. After the transaction of some routine business the house adjourned.

One hundred and thirty-four members of the house were present out of a total membership of one hundred and forty-two. The meetings of the house were better attended than at any time since its organization. The business was dispatched with accuracy and rapidity, the most notable tendency being the reference of resolutions, communications, etc., to the appropriate reference committees without discussion, reserving the consideration of the questions involved until the reference committee had considered the matter and submitted a report.

The social events of the week were particularly attractive. On Monday night the secretaries of the state associations and the editors of the state journals met at dinner and completed the organization of a state secretaries and editors' association. A dinner to foreign guests as well as a number of other social events also occurred on Monday evening. On Tuesday evening twenty-seven alumni dinners were held in the various hotels and restaurants throughout the city, the largest being that of Northwestern University Medical School, held at the Illinois Athletic Club, at which over 800 alumni were present. On Wednesday evening the president's reception and ball was held at the Coliseum, thousands of members and guests being present. On Thursday evening the local profession tendered the members of the association a smoker at the Coliseum, at which the attendance amounted to about 8000. Numerous social attractions were provided during the day for the ladies and guests, including receptions at the South Shore Country Club, Chicago Women's Club, etc. The sections were all largely attended and the programs were of a high order. The session was in every way the most noteworthy of any which has yet been held, and it is anticipated that some years will elapse before the record established will be surpassed.

CALIFORNIANS REGISTERED AT THE A. M. A. MEETING.

The following physicians from California were registered as in attendance at the recent meeting of the A. M. A., Chicago, June 2d, to 5th:

W. W. Beckett, Mariana Bertola, Stanley P. Black, Adelaide Brown, C. C. Browning, William Fitch Cheney, C. C. Cottle, H. Bert Ellis, J. T. Fisher, N. K. Foster, Mary E. Hagadorn, George A. Hare, Jessie D. Hare, A. W. Hewlett, William E. Hibbard, Vard Hulen, H. A. Johnston, J. W. Jones, Philip M. Jones, C. D. Lockwood, I. A. McCarty, J. L. McLaren, H. G. McNeil, Caroline McQuiston, F. C. E. Mattison, Austin Miller, F. W. Miller, R. W. Miller, C. A. Morris, A. W. Morton, P. T. Phillips, T. C. Pounds, G. F. Reinhart, W. H.

Roberts, Wallace I. Terry, W. C. Tuckerman, H. H. Sherk.

F. K. Ainsworth, J. L. Arbogast, J. L. Benepe, C. A. Briggs, Solon Briggs, Gustav Dresel, T. C. Edwards, Martin Fischer, C. F. Griffin, W. S. Johnson, J. H. McBride, Kaspar Pischel, H. M. Robertson, A. F. Rooney, H. L. Wagner, C. F. Welty, R. L. Wilbur, Norman Bridge, H. D. Crabtree, Martin Krotoszyner and Harry M. Sherman.

COUNTY SOCIETIES

RIVERSIDE COUNTY.

The Riverside County Medical Society held its concluding meeting of the year June 7th, at the Victoria Club, with the wives of the doctors as guests. One of the honored guests was Dr. George Martin of Los Angeles, who has recently returned from England, where he has been associated with Dr. Wright of opsonic fame.

Dinner was served at 7 o'clock in the faultless style of the Victoria Club. The tables were prettily decorated with sweet peas and ferns. Dr. Martin read a very interesting and advanced paper along the lines of vaccine therapy, his subject being "The Role of the Immunizer in Modern Medicine." This was followed by discussion. During the reading of the paper and the discussion, the ladies entertained themselves with bowling and billiards.

A pleasant incident of the meeting was the presentation of a gold-headed cane to Dr. J. B. Baird, who has passed his sixtieth milestone. The presentation remarks were happily made by Dr. W. B. Sawyer, in behalf of the society, and were responded to in a felicitous manner.

Included in the company were Dr. George Martin of Los Angeles, Dr. and Mrs. C. Van Zwahlenburg, Dr. and Mrs. Thomas R. Griffith, Dr. and Mrs. G. E. Tucker, Dr. and Mrs. H. A. Atwood, Dr. and Mrs. W. B. Sawyer, Dr. and Mrs. H. R. Martin, Dr. and Mrs. C. S. Dickson, Dr. and Mrs. W. B. Payton, Dr. and Mrs. J. M. Colburn, Dr. Louise Harvey Clarke, Mrs. A. S. Parker, Miss Agnes Baird, Dr. J. G. Baird, Dr. A. W. Walker, Dr. C. Girdlestone, Dr. Karl Sleeper and Dr. W. W. Roblee.

SAN FRANCISCO COUNTY.

Meeting of May 12th, 1908.

Report of cases, Dr. Krotoszyner:

Three cases of bilateral cystic kidney. Up to 1901, when Jas. Israel's treatise upon the surgical diseases of kidney appeared, only four cases of bilateral polycystic degeneration had been recorded. To this number Israel added four of his own cases. The main reason for the failure of establishing a correct diagnosis is the absence of characteristic symptoms, until suddenly severe uremic symptoms set in, quickly followed by the patient's death. The first case is of this type. It concerns an elderly lady of 60 who was treated at the German Hospital for vague gastric disturbances. Suddenly uremic symptoms set in under which the patient died. The autopsy showed in both kidneys the typical picture of polycystic degeneration with hardly any secretory kidney tissue left. The lesson learned from the first case aided in the diagnosis of the second. A teamster of 41 complained of pain in both kidney regions which had bothered him off and on for several years. When coming under observation large tumors could be felt in both kidney regions. Urine examinations showed the same findings as present in chronic interstitial nephritis. Patient was observed at German Hospital for a number of weeks until his death. Two cystoscopic examinations were made showing low functional capacity of the kidneys. Amount of urea in the daily quantity of urine determined dur-

ing fifteen days varied between 7 and 12 grammes. Blood cryoscopy gave 0.6. Phloridzin test never revealed the presence of sugar. Blood examination gave the low hemoglobin point of 55%; a decrease of red cells to 1,900,000; and a slight leukocytosis (up to 17,000). Tumors on both sides of abdomen which apparently represented the enormously large kidneys were palpable. They grew rapidly in size. Surface of both tumors is regular. Tumor on right side somewhat smaller than that on left side. Patient died under symptoms of deep uremic coma. Autopsy by Dr. Ophuls presented two very large polycystic kidneys. Liver of normal size showed quite a number of small cysts filled with clear liquid. Left kidney weighed 2 lbs. 2 oz. and measured 23x30 cm. Right kidney weighed 2 lbs. and measured 20x10 cm.

Third case concerned a woman of 28. Had suffered ten years ago from hematuria, which lasted three days. After curettement she was seized with severe pain in left loin followed by high fever. At the hospital septic temperatures and cloudy urine were observed. On left side of abdomen, mass was palpable which seemed to belong to the left kidney. Cystoscopy showed many ulcerations on bladder wall. Urine from left ureter cloudy and contained much pus; urine from right side normal. On account of relatively good functional values found in the urine of the left side a nephrotomy was advised which was performed two years ago; a great cyst filled with pus was evacuated. A few months later patient underwent a laparotomy for ventrofixation. About a year later patient suffered again from general malaise and frequent urinations, pressure in abdomen and severe headache. On palpation the right kidney appeared enlarged with irregular surface, its lower pole palpable at navel line. Left kidney not enlarged upon palpation. Cystoscopy reveals a normal bladder. Clear urine collected from both ureter catheters. Functional tests on both sides below par. Microscopically nothing of note. Exposure of right kidney presents picture of a typical polycystic kidney. All cysts are evacuated and nephrofixation is performed. This case presents the rare case of a bilateral kidney in which the involvement of one organ is follow after a long time by involvement of its sister organ. This case further proves the value of functional tests as otherwise the left kidney might have been removed. Patient is gradually improving and at present is in a comparatively good condition.

Dr. Barbat, discussing paper read by Dr. Krotoszyner:—With regard to the operation for cystic kidneys, we find in the vast majority of cases that the congenital cystic kidneys are bilateral and it is very wise if an operation is attempted and the kidney found to be cystic, to defer the nephrectomy until the other side is investigated. My preference is to do an interior operation. Then the second kidney can be explored very easily. It is very wise to explore the second kidney before attempting to operate upon the first, particularly in a case of a congenital cystic kidney.

Dr. Silverberg, discussing paper read by Dr. Krotoszyner:—The remarkable thing about these patients is that they live to this age before the symptoms manifest themselves.

Dr. Krotoszyner, closing discussion:—I think that at present palpation of the kidney is more or less abandoned. I think that ureteral catheterization has made this thing more or less unnecessary. I admit in some instances where it is impossible to make a cystoscopic examination or get evidence before the operation of the condition that the palpation is indicated. As regards the age of these patients having polycystic kidneys, I think that if Dr. Silverberg will look over the literature he will find that almost all ages have these cystic kidneys. It is characteristic that they often go unrecognized

for years. One author quoted cases operated on 10 or 15 years after the polycystic condition was recognized by the clinician. I do not think that the age is anything which should be necessarily wondered at.

SANTA CLARA COUNTY.

The regular society meeting was held May 20th at the St. James Hotel with the following present: Drs. Jordan, Ulrich, Fraser, Tourtillott, Blair, Hopkins, Newell, Cooper, Goodridge, Wagner, Kapp, Simpson, Cothran, Hogg, Miner, Paterson, Kocker, Van Dalsem, Snow, McGinty, Burns, Whiffen, Harris and Park. Dr. Whitney and Dr. H. C. Moffitt were the guests of the Society.

Dr. Cothran presented a most interesting case showing extensive destruction of bony and soft tissues from syphilis.

The society accepted the use of a room from the Carnegie Library for the placing therein of the society library.

Dr. Herbert C. Moffitt of San Francisco read a paper entitled "Clinical Features of Influenza since the Pandemic of 1889-1890." A general discussion followed the reading of Dr. Moffitt's paper, as well as the society thanking Dr. Moffitt for his courtesy.

Dr. Wm. Simpson, our delegate to the State meeting, reported his success in securing the State Society meeting for San Jose in 1909, and already the members of this County Society have started in to make their plans for the largest and best State meeting ever held in California. The meeting adjourned at 10:15 p. m.

K. C. PARK, Secretary.

SONOMA COUNTY.

April 9 Dr. A. W. Morton gave us many fine ideas on Bier's treatment of surgical diseases. Dr. A. Schloss of San Francisco was also a visitor at this meeting, held in Dr. J. J. Keating's office, Sebastopol. We had no meeting on May 14, owing to the sickness of Dr. H. C. Moffitt, San Francisco, who intended to talk on "Internal Medicine." On June 11, we met in Dr. J. W. Clark's office, Santa Rosa, those present being: President, J. H. McLeod, W. J. Kerr, G. W. Mallory, R. M. Bonar, C. H. Thompson, F. O. Pryor, Jackson Temple, J. W. Clark, E. M. Yates, P. A. Meneray, W. C. Shipley, J. J. Keating, Edward Gray, E. J. Ruddock and Henry Meyer, San Francisco, and Professor Josiah Keep, Mills College. President McLeod introduced Dr. Henry Meyer with a few well-chosen words, who immediately entered upon the discussion of the subject, "Intro-vesical Operations Without Knife or Anesthetic with Special Reference to the Removal of Benign Tumors." The doctor gave the credit of this subject of surgery to Dr. Nitzer, who died at 47. Dr. Nitzer was the pioneer in intro-vesical surgery, both as to how to diagnose and treat, and also the instruments were devised by him. Dr. Meyer said that only two or three men in this country were in this work. He explained what could be done in removing benign tumors with the snare and then by pressing a button cauterizing the base of tumor. He explained how he opened the ureteral orifice by a pair of scissors, very small, and with the forceps he extracted calculus from urethra. He demonstrated how to take pieces of stone, catheters or any foreign body from bladder. This he did on the phantom bladder.

We spent a most instructive evening, and gave to Dr. Meyer a hearty vote of thanks for his clear, decisive instructions and advice. After a delicate lunch we agreed to meet in Guerneville, July 12, at 11 a. m. There we shall hear a sermon on a proper subject for laymen and physicians.

G. W. MALLORY, Secretary.

DR. CHARLES S. PORTER NOT DEAD.

Dr. Charles S. Porter of Burnett, reported as dead in the July issue, is alive and kicking—very much so. The error occurred inadvertently in the secretary's report.

CHANGES OF ADDRESSES.

Barbat, Wm. F., from 2305 Howard st., to 2267 Howard st., San Francisco.

Waiss, Alex. S., from Grosse Bldg., to Central Bldg., Los Angeles.

Barkan, Adolph, from 1700 California st., to Butler Bldg., San Francisco.

Sewell, Edw. C., from 1700 California st., to Butler Bldg., San Francisco.

Weber, Phil H., from Redding, Cal., to Winthrop, Cal.

Wheeler, Chas. H., from Fall River Mills, Cal., to Oakland.

Jones, H. Isaac, formerly Starr King Bldg., San Francisco, to First National Bank Bldg., Oakland, Cal.

Rooney, Henry T., from Winthrop, Cal., to San Francisco.

Baum, R. W., from 2502 Washington st., to Hastings Bldg., 162 Post st., San Francisco.

Nelson, Lois, from 1201 Devisadero st., San Francisco, to 816 54th st., San Francisco.

Rosencrantz, Nathaniel, from 1323 Devisadero, to 25 Third st., San Francisco.

Eckhardt, A. O., from Gualala, Cal., to Europe.

Lehnhoff, Wyld Fred, from 1163 Van Ness ave., to Guatamala, Mexico.

Berndt, R. M. H., from 1850 Pine st., to 1388 Geary st., San Francisco.

Harris, H., from 2470 Bush st., to 1204 Sutter st., San Francisco.

Edwards, W. R., from 530 5th st., to 101½ So. Broadway, Los Angeles.

Greene, L. L., from 1362 Peralta st., Oakland, to 2937 Cambridge ave., Berkeley.

Ryfkogel, H. A. L., from 1380 Sutter st., to 2209 Sutter st., San Francisco.

Howard Katherine I. from 2526 Ocean Boulevard, to 1542 California st., San Francisco.

Gibbons, Henry, Jr., from 2405 Fillmore st., to Union Square Bldg., 350 Post st., San Francisco.

Gibbons, Morton R., from 2405 Fillmore st., to Union Square Bldg., 350 Post st., San Francisco.

Gibbons, Henry Walter, from 2405 Fillmore st., to Union Square Bldg., San Francisco.

Voorsanger, Wm. C., from 2502 Washington st., to Hastings Bldg., Post st. and Grant ave., San Francisco.

Belknap, Florence A., from Palo Alto, Cal., to 1498 Fulton st., San Francisco.

Smiley, W. C., from Pasadena, to Beaumont, Cal.

Byars, Alfred H., from Fresno Flats, to Madera, Cal.

Boyd, Samuel G., from 1659 Webster st., to Voorhies Bldg., San Francisco.

Thorne, Walter Scott, from 1434 Post st., to Union Square Bldg., San Francisco.

Cole, J. A., from Yuba City, to Park, Cal.

Park, Lottie C., from 426 6th st., Los Angeles, to Broderick, Cal.

Werner, A. F., from 1627 Grove st., to 883 San Pablo ave., Oakland.

Gedge, D. McC., from 925 Golden Gate ave., to 503 Market st., San Francisco, care Metropolitan Life Insurance Company.

Renz, C., from 818 Grove st., to Chronicle Bldg., San Francisco, care Dr. E. L. Brune.

Cloud, M. M., from Auditorium Bldg., to Grant Bldg., Los Angeles.

Bine, Rene, from 2632 Laguna st., to Union Square Bldg., San Francisco.

- Alden, Bertram F.**, Ortman Bldg., San Francisco.
Hours, 2 to 4. Residence, 4200 California st., San Francisco.
- Bricca, C. R.**, from 665 Green st., to Butler Bldg., San Francisco.
- Delmont, Francis**, from 831 Oak st., to 610 Green st., San Francisco.
- Howard, Jos. Louis**, from 1059 O'Farrell st., to Butler Bldg., San Francisco.
- Sherman, Harry M.**, from 2210 Jackson st., to Union Square Bldg., San Francisco.
- McChesney, Geo. J.**, from 2210 Jackson st., to Union Square Bldg., San Francisco.
- Hopkins, M. F.**, from 38 N. 2d st., to Ryland Bldg., San Jose.
- Conlan, F. J. S.**, from 1766 O'Farrell st., to Butler Bldg., San Francisco.
- Dillon, Jno. Francis**, from 528 14th st., to 1992 15th st., San Francisco.
- Smith, Kirby B.**, from San Francisco, to Melrose, Cal.
- Cluness, W. J., Jr.**, from 2403 Fillmore st., to Union Square Bldg., San Francisco.
- Hopkins, Wm. E.**, from Gough and Turk sts., to Butler Bldg., San Francisco.
- Hopkins, Edw. K.**, from Gough and Turk sts., to Butler Bldg., San Francisco.
- Mardis, Benj. A.**, from 6th ave. and Clement st., to Ortman Bldg., San Francisco.
